Engineered Welding, Inc.

Anamosa, Iowa

Loan Type: IRP & RLF

Amount: $90,000, 7 years

$100,000 5 years

Purpose: Engineered Welding, Inc. has been in operation since 2002. They specialize in robotic welding. The company employs 15 people and offers a flexible work schedule. The owner is a certified welding instructor and takes the time to train his employees which he attributes to the retention and satisfaction of his employees.

The loans were used to purchase additional specialized robotic welding equipment. The plasma cutter that was purchased produces the least amount of scrap waste and has been a valuable asset to their business.
