

## Fuller Family Dental

Corning, Iowa

**Loan Type:** REDLG

**Amount:** \$175,000 10 years

**Purpose:**

The Corning community recruited Maria Fuller, DDS after completing dental school to open a new dentist office in their community. Their current dentist was reducing his hours in preparation for retirement and the nearest dentist would then be over 30 miles away.

There is a growing need for dentists in rural Iowa. Dr. Fuller and her family visited several communities before deciding on Corning. To address this growing need project FIND (Fulfilling Iowa's Need for Dentists) was established. For more information go to [www.iowafindproject.com](http://www.iowafindproject.com).

This loan was part of an economic development package and assisted in the renovation of the building and equipment and supply purchases. Fuller Family Dental opened in June 2008 and has 5 employees.
