

Mid-State Milling, Inc.

State Center, Iowa

Loan Type: IRP

Amount: \$100,000, 5 years

Purpose:

Mid-State Milling is a feed mill that was purchased in 2003. Annual sales have grown from \$1 million to over \$20 million. The customer base has grown from a 60 mile radius to over 200 miles as smaller rural mills are closing. The company started with 10 people and one shift and has grown to 19 employees and growing. In 2008 the offices were moved from the mill to an expansive facility also in State Center.

The IRP loan was used to purchase a computerized mixer and an additional storage tank to meet growing capacity needs. The new mixer provides four times the output of the original mixer and produces a higher quality product.

Expanded office space

Computerized Mixer
